Welcome

The Australian Orthopaedic Association (AOA) is the peak professional body for orthopaedic surgeons in Australia.

AOA provides high-quality specialist education, training and continuing professional development.

AOA is committed to ensuring the highest possible standard of orthopaedic care and is the leading authority in the provision of orthopaedic information to the community.

AOA actively supports scientific research and orthopaedic humanitarian **initiatives, in Australia and overseas.**

Welcome to the **2025 AOA Queensland Annual Scientific Meeting.**

This year's theme, **"Medico-Legal and Trauma,"** highlights the complex interface between orthopaedic practice, legal responsibility, and trauma care—an area that continues to evolve and challenge us as clinicians.

We operate in high-stakes environments where decisions must be both medically sound and legally defensible. This meeting offers a timely opportunity to explore these challenges, share insights, and strengthen our understanding of the responsibilities we carry both inside and outside the operating theatre.

We're fortunate to welcome an outstanding group of speakers—from trauma surgeons and medico-legal experts to legal professionals—who will help us navigate these critical topics with clarity and practicality.

Alongside a stimulating scientific program, we invite you to enjoy the trivia afternoon and conference dinner—a chance to relax, reconnect, and celebrate our shared commitment to the profession.

Thank you for being part of it. We look forward to a meaningful and engaging meeting.

Chair: Scott Sommerville

Convener: Michael Lutz
