### **Lecture Schedule**

Ctacina/Pionen

	Staging/Biopsy
	Session 1: Tumor Simulators
	Session 2: Giant Cell Lesions of
	Bone
Day 1	
Day 1	Surgical Management of
	Skeletal Lesions/Chemotherapy
	Session 3: Benign Cartilaginous
	Lesions
	Session 4: Malignant
	Cartilaginous
	Lesions/Chordoma
	Lesions/ Chordoma
Day 2	
	Skeletal Reconstruction
	Session 5: Benign Bone-
	forming Lesions
	Session 6: Malignant Bone-
	forming Lesions
	Surgical Management of Soft
	Tissue Lesions/Radiation
	Therapy
	Session 7: Soft Tissue
	Sarcomas
	Session 8: Soft Tissue Tumors:
Day 3	Molecular Pathophysiology
	Management of Pathologic
	Fractures
	Session 9: Metastatic
	Carcinoma and Round Cell
	Lesions

UF Department of Orthopaedics and Rehabilitation Sponsored by the Australia & New Zealand Sarcoma Association

Brisbane
Convention and
Exhibition Centre
Brisbane, Australia
October 4-6, 2024

# University of Florida October 2024 William F. Enneking Musculoskeletal Pathology Course

This three day seminar is an immersion experience in basic musculoskeletal pathology, correlated with radiographic imaging and staging techniques, histologic diagnosis, and principles of treatment covering the gamut of musculoskeletal lesions.

This is the fifth time that this premier course has been offered in Australia and it represents a unique opportunity for registrars and consultants in the fields of Orthopaedics, Pathology & Radiology

# University of Florida William F. Enneking Musculoskeletal Pathology Seminar

# **Sponsored by the Australia & New Zealand Sarcoma Association**

### **Course Overview**

Each day begins with a key presentation followed by a morning session concerning specific subjects taught by case presentation that includes microscopic study of the pertinent histologic slides and interactive computer assisted instruction.

Experienced musculoskeletal pathologists and orthopaedic surgeons are available for individual instruction throughout these sessions. Discussion cases are available for study during the session and an interactive discussion between faculty and participants focused on the treatment of the subjects under consideration concludes the session.

The afternoon session is a duplicate of the morning session; presentation of case materials, histologic slides, and computer assisted instruction of the subjects under consideration, followed by discussion of the treatment focused discussion cases.

The day concludes with an interactive discussion between participants and instructors concerning the diagnosis and management of the day's unknowns.

## **Course Faculty**

Mark T. Scarborough, MD

Seminar Director, Professor University of Florida Orthopaedic Oncology

C. Parker Gibbs, MD

Professor University of Florida Orthopaedic Oncology

John D. Reith, MD
Professor, Director of Anatomic
Pathology
University of Florida
Department of Pathology

Andre Spiegel, MD

Professor University of Florida Orthopaedic Oncology

Gerard J Powell, FRACS

Visiting Professor University of Florida Orthopaedic Surgeon Melbourne

# **Guest Faculty**

Richard Carey-Smith, FRACS

Professor University of Western Australia Orthopaedic surgery

Grant Pang, FRACS

Orthopaedic Surgeon Royal Melbourne Hospital Orthopaedic Oncology
